**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-18, 20-21, 23-44 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art of record fails to teach the method of bonding two wafers together wherein one wafer has a recess in it, after which the substrate without the recess is etched to form an overhanging substrate, where an etch stop layer is placed between the substrates, which is removed after the etching. Xiao et al., the closest prior art applied previously, does not teach an etch stop layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
